CROSS-BORDER COOPERATION IN THE SPHERE OF TOURISM IN Roztocze

Purpos. Show directions for the development of promising types of tourism with a view to cross-border cooperation in Ukrainian and Polish Roztocze

Methodology is based on the use of modern methods of searching and processing heterogeneous information, its analysis, synthesis and generalization.

Results. Based on the analysis of recreational tourism resources and potential, directions for the development of cross-border cooperation with the aim of developing small settlements in Roztocze were proposed.

Scientific novelty. Generalized recreational and tourist resources of the Polish and Ukrainian Roztocze, including latent ethno-memorial resources, are disclosed. Identified promising types and forms of tourism activities.

Practical significance. Proposed areas of cross-border cooperation between Ukraine and Poland at the Roztocze, in particular on the development of active recreation and ethno-cultural tourism.

Keywords. Roztocze, recreational and tourist resources and potential, active, ecological, cultural and educational tourism .
