EVALUATION OF LOCAL GOVERNMENT UNDER DECENTRALIZATION IN UKRAINE

Purpose. The author showed the influence of decentralization of power on the transformation of local self-government in the last three years in his article.

The research methodology. Using the method of expert assessments, the author analyzed the current state, problems and prospects of the development of local self-government bodies.

Research results have applied value and can be used by local government bodies in their work. Scientific novelty. For the first time, the system of interconnections between experts and local governments was analyzed in the course of social geographic research, from the point of view of the territorial organization of power.

The practical value of the study has arisen due to increased interest from local authorities, the public and the population. The territorial organization of power is the subject of discussion of experts and reformers. It is important to analyze such preliminary forecasts that coincide with the real challenges of implementing decentralization in the regions.

Key words: local self-government, decentralization of power, territorial organization of power, expert assessment.
